

RGC

REIMANN&GEORGER CORP.

PERSONAL WATERCRAFT LIFTS

RELIABLE PROTECTION AND DURABILITY IN 3 DIFFERENT STYLES CHOOSE THE LIFT THAT'S RIGHT FOR YOU:

HYDRAULIC

The top choice of PWC owners, RGC's Hydraulic lift will have you on the water in seconds with easy operation and ultimate protection.

VERTICAL

The Vertical lift will keep your watercraft safe and secure with simplicity and durability you can count on. Customizable drive options and accessories allow the right fit for any need and budget.

CANTILEVER

For those who value simplicity, the Cantilever lift delivers. All models come standard with 4 adjustable legs and 30" handwheel.

BUILT TO LAST

PWC AND SMALL CRAFT LIFT FEATURES

HYDRAULIC

- Supports up to 2,000 lbs.
- FAST, SMOOTH, QUIET
- Remote control of your lift
- Marine Grade Aluminum frame is stronger than competitors
- Welded frame construction with fewer moving parts is easy to maintain
- Optional solar panel offers clean and low maintenance power
- Biodegradable Hydraulic fluid is eco-friendly

VERTICAL

- Supports up to 2,000 lbs.
- Ideal for deep, shallow, and fluctuating water depths
- Small footprint
- Easy installation, adjustability and customization, no special tools needed
- Corrosion resistant stainless-steel cables and hardware last longer
- Low maintenance polymer sheaves prolong cable life

CANTILEVER

- Supports up to 1,200 lbs.
- Suitable for PWCs & small boats
- Easy installation and adjustability
- All units come standard with 30" handwheel and 4 adjustable legs
- Adaptable with ability to mount winch and handwheel on either side of lift
- Upgrade to powered lifting with an optional AC friction drive

CUSTOMIZE YOUR LIFT WITH ACCESSORIES

- **BOW STOP** Provides a soft stop and securely positions your boat in the cradle. *(VL and HL only)*
- **VERTICAL GUIDE POSTS** Safely guides and protects your boat on entry and exit so you can dock with confidence. *(VL and HL only)*
- **SOLAR PANEL** Upgrade to solar to charge your battery for clean, free, low maintenance power.
- **AC TRICKLE CHARGER** Keeps your battery ready for any situation while preventing damage due to overcharging.
- **SCREW ADJUSTABLE LEGS** Easy to adjust and equipped with large foot plates to provide superior stability. *(Use with VL 1,600 - 2,000 lbs. only)*
- **SHALLOW WATER FOOTPLATES** Provides stable footing in shallow water installations.
- **DEEP WATER EXTENSION LEGS** Enhance safety and support and offer easy leveling in deep water. Offered in 5 lengths: 29.5", 4', 6', 8' and 10'. *(Vertical only)*
